Royal Bank of Canada
180 Wellington St West, 3rd Floor,
Toronto, ON, M5J 1L1

To Hiring Team,

This letter is to express my interest in your posting for a **Software Developer**. Working as a Software Developer with your company would give me the chance to combine my skills and experience with this passion for the field. As a graduate student in the Master of Applied Computing program at the University of Windsor, I am looking for a full-time job opportunity starting in May 2019.

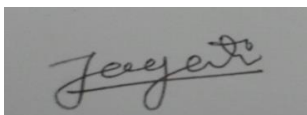

I am currently pursuing internship in BlackBerry and possess two years of work experience as a Software Developer at Sparsh Technology. While working for BlackBerry and Sparsh, I gained work experience in PHP, Python, Bootstrap, JQuery, and MySQL. A few I skills would like to highlight that I gained during my work experience and academic period, which enable me to contribute to your bottom line are:

- Highly skilled in designing, testing, and developing software
- Thorough understanding of data structures and algorithms
- Knowledgeable of back-end development best practices
- Hands-on software troubleshooting experience
- Proven track record of proper documentation for future maintenance and upgrades

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me and the success of your organization.

I feel that my experience and skills would make me an ideal fit for Royal Bank of Canada for **Software Developer** position. Please feel to contact me at 226-961-4287 or email bhudiya@uwindsor.ca. Thank you for your review and consideration of my resume. I look forward to hearing from you soon.

Sincerely,

Jagruti Bhuiya
